

## GRANT APPLICATION

ASOPRS Foundation's Mission is to support Educational, Scientific or Humanitarian Projects that advance the discipline of oculofacial surgery.

1. Date of Submission:

2. Define the Category of the Proposal:

Educational:

Humanitarian:

Research:

3. Principal Investigator Name:

Email:

Co-Investigators/Affiliations:

Project Title:

Affiliation:

Address:

4. Purpose or Goal of Project (State why are you asking the ASOPRS Foundation for grant funding and explain how this project would advance the practice of oculoplastic surgery).

(add additional pages as necessary; if research project please see page 3):

Anticipated Duration of Project:

Amount of Grant Request:

5. Budget (please attach budget-include milestones and timeline):

6. Please comment as to why are you applying for a grant from the ASOPRS Foundation and if you have any other sources of funding?

Attestations (if grant is funded by ASOPRS Foundation):

I agree to acknowledge the ASOPRS Foundation as a funding source in all written manuscripts and oral presentations of this work.

I agree to provide an annual update to the Foundation on the status and progress of this work and a final summary once completed. This should include how funds were utilized.

I agree that none of these funds will be used to support a fellow's thesis for membership in ASOPRS.

I agree that OPRS/ASOPRS will have first right of refusal for any manuscript resulting from this grant.

Signature:

Date:

For Research Proposals (Please attach additional page with format below):

- a. SPECIFIC AIMS (1 page limit must include a narrative paragraph and a testable hypothesis)
- b. PURPOSE or GOAL of Project (add additional pages as necessary)
  1. Lay summary (150 words or less) Using words familiar to the average non-scientist; please explain how this project will increase our understanding of vision, ophthalmology, orbital disease or periocular conditions and/or specific eye diseases and pathologies.
  2. Abstract (150 words or less)
- c. BACKGROUND (must include prior research in the field)
- d. METHODS or STRUCTURE of Project (include detailed methods and protocol)
- e. REFERENCES

Additional research attestations:

All projects including human subjects or animal research must have confirmation of Institutional Approval prior to release of any ASOPRS Foundation funding and attestation to conform to the ethical requirements of the Institutional Review Board.

I acknowledge that IRB and IACUC approval (if applicable) will be communicated to ASOPRS Foundation prior to the release of any funds and that I will adhere to the ethical requirements of both the Institution and these criteria of the ASOPRS Foundation.
